

About the Sponsors

Aging Research Institute (ARI) was created in 1988 by the Kansas Association of Homes and Services for the Aging. Aging Research Institute (ARI) exists to help Boards and Executives transform their organization to respond to the needs of tomorrow's elders. We focus on serving not-for-profit elder service organizations with strategic planning, consulting, executive search, research with application and training programs and services.

American Institute of Architects (AIA) is the voice of the architecture profession dedicated to serving its members, advancing their value, and improving the quality of the built environment.

American Association of Homes and Services for the Aging (AAHSA) serves two million people every day through mission-driven, not-for-profit organizations dedicated to providing the services people need, when they need them, in the place they call home. AAHSA's commitment is to create the future of aging services through quality people can trust.

International Association of Homes and Services for the Ageing (IAHSA) is an international, not-for-profit educational and charitable organization with multi-national composition, both in governance and membership. IAHSA members are from over 30 countries and include leaders in long-term care, senior housing, business and government as well as professionals interested in the international arena of ageing services. IAHSA fosters an international forum for the exchange of research, information, ideas, services, products and training that benefit aged care service providers.

SAGE is an organization that promotes networking and collaboration among individuals who are creating better environments for older adults. SAGE members are individuals from a diverse array of professions and disciplines. SAGE seeks common ground so that environmental issues can be discussed in a non-adversarial climate.

ATTRACTIONS: Overland Park, KS is located in the southwest section of the Kansas City area, 35 miles from Kansas City International Airport, and minutes from Kansas City, MO. Overland Park and nearby Kansas City, offer many attractions including everything from live theater and art museums to amusement parks and petting zoos. Overland Park is also known for its great restaurants and fine shopping, including Oak Park Mall - a popular two-level mall featuring Nordstrom and Dillard's as anchor stores. Visitors can also enjoy attending professional sports competitions including the **Kansas City Royals (MLB)**, the Kansas City Chiefs (NFL), the Kansas City Comets (MISL), the Kansas City Wizards (MLS), and the Kansas City Explorers (WTT) and Worlds of Fun Amusement Park

International Symposium on Design for Aging

June 5-6, 2006
Doubletree Hotel
Overland Park, Kansas

Sponsored by
Aging Research Institute
American Institute of Architects

with additional support from
AIA Kansas/AIA Kansas City
American Association of Homes and Services for the Aging
International Association of Homes and Services for the Ageing
Society for the Advancement of Gerontological Environments

*The American Institute of Architects and the Aging Research Institute cordially invite you to attend the **2006 Design for Aging Symposium** June 5-6, 2006, in Overland Park, Kansas.*

The number of Americans aged 65 and older is expected to double in 25 years. As they have with virtually everything else, boomers will change the concept of retirement living in a whole new way. *Will your existing campus meet their needs and desires? What do the boomers want in apartments and health services? Can you incorporate the newest design principles and value of Culture Change? Come and find out in this exciting new program...*

The Design for Aging (DFA) Knowledge Community of the American Institute of Architects (AIA) in collaboration with members of the American Association of Homes and Services for the Aging (AAHSA) have been studying design for over 15 years. In the past two years, Aging Research Institute has been assisting these groups in an in-depth post occupancy study of 20 senior facility organizations across the world.

This special event will be the first pre-release of the latest knowledge and innovations gained through this study. We invite CEO's, Administrators, Architects, Board Members, and anyone interested in advancing the field of design for the aging. The Symposium will be an interactive program, inviting participants to "show and tell" about recently designed enhancements in their facilities.

Participants who attend this limited space program will take away new knowledge pertaining to:

- ✓ Resident-oriented design solutions of culture change
- ✓ Environments that enhance the work experience
- ✓ Innovations in apartment design and nursing care provisions
- ✓ Environments that promote, dignity and social interactions

Each participant will receive a CD of all the presentations.

A Sneak Preview of "The Household Model Toolkit: Everything You Need to Create Home" - Meadowlark Hills, a nationally recognized Continuing Care Retirement Community recently featured on CBS Evening News and a pioneer in implementing the new "Household Model" for elders, has created an unprecedented collection of interconnecting systems designed to help you transform your organization from a traditional institution into a warm and comforting home for elders. With funding from the Commonwealth Foundation, Sunflower Foundation, and the Kansas Department on Aging, the toolkit will guide users through the foundation, framing, and finish work of creating home...both physically and organizationally. This collection of tools includes: a guidebook on transforming an institution to a household model; a policies and procedures manual; a human resource systems guide that features CD's and DVD's; and a process and quality measuring system.

Program Schedule

8:00 – 9:00 ^{AM}	REGISTRATION
9:00 – 10:15 ^{AM}	DESIGN FOR AGING FOR TOMORROW'S ELDERS: CREATING A HOME FOR US - STEVE SHIELDS

12:00 ^{PM}	ADJOURNMENT

Meet the Facitators

Jeff W. Anderzhon has over 30 years of design experience with multifamily, commercial and long-term health care commissions. As Principal of InVision Architecture, he serves on the American Institute of Architects 2005 Design for Aging Advisory Group. He holds a Bachelor of Architecture degree from Illinois Institute of Technology, where he is a member of the Alumni Board of Directors and is licensed as an Architect in 22 states.

Margaret P. Calkins, PhD, is internationally recognized as a leader in the field of environments for elderly, especially those with Alzheimer's and other dementias. I.D.E.A.S., Inc. [Innovative Designs in Environments for an Aging Society] was incorporated in 1991 by Margaret with its mission "to engage in research, education and consultation on the therapeutic potential of the environment—organizational and social as well as physical—particularly as it relates to frail and impaired older adults."

Ingrid Fraley, ASID, Gaithersburg, Maryland, is President of Design Services Inc. an interior design firm practices nationwide designing supportive environments for older adults. Design Services commitment to the senior living industry has grown to encompass extensive knowledge of the aging process and the role of interior environment.

John Grace is President of Aging Research Institute. John is a master's degree graduate from the University of North Texas in Studies on Aging program. From 1984-2004, John served as the President & CEO of the Kansas Association of Homes and Services for the Aging, (KAHSA) a trade association of 150 not for profit retirement, housing, nursing and home health programs serving over 15,000 elderly persons daily throughout Kansas.

Mitch Green, AIA, is an international design architect based in Vermont having worked on retirement living projects throughout the world and most recently in Japan. Mitch has served on the team of architects completing work on the Post Occupancy Study for the American Institute of Architects Design for Aging.

Kyle Key serves as Spectrum's Communications Director, working with general corporate communications and business development, as well as helping with creation and implementation of designs for Spectrum and client marketing materials. Kyle holds a BA from The University of North Carolina at Chapel Hill in Journalism and Mass Communication, a Master's Degree in Communication Studies from The University of North Carolina at Charlotte and a Graduate Certificate in Gerontology.

Lydia E. Pugh is the Director of Research and Strategic Planning, responsible for managing the Marketing Research and Strategic Planning Division of Spectrum, which includes oversight of the development of research protocol, management of research engagements, and overseeing organizational development initiatives such as facilitating board retreats and strategic planning. She has worked exclusively in the CCRC industry since 1978 and previously served as the Director of Marketing for Asbury Methodist Village.

Steve Shields is President/CEO of Meadowlark Hills, a continuing care retirement community serving over 250 elders. As the formal leader, Shields facilitated the deep change process from the traditional model to a national example of deep culture change in a household model environment. Shields teaches and facilitates retreats for organizations interested in and beginning the culture change process, and has also become a national speaker on leadership and culture change.

David G. Slack, Executive Vice President of Aging Research Institute has over 30 years experience in working with senior living and health care organizations. David has managed, developed, consulted and financed senior living and health care organizations across the United States, including nursing facilities, assisted living facilities, CCRCs and critical access hospitals. David provides operational, managerial, and developmental consulting services as part of Aging Research Institute's advisory services.
